

Confirm Email Delivery of Invoices, Purchase Orders & Other Reports from JDE

AventX for JD Edwards is a bolt-on solution that automates the email and fax delivery of any document from JDE EnterpriseOne. With seamless integration to your existing environment, AventX provides your users with 100% confirmation that emails and faxes are received by the intended recipient - all while decreasing IT's workload.

Automated Email and Fax Delivery with 100% Confirmation of Receipt

By bolting on to existing JDE functionality, AventX for JD Edwards automates email and fax delivery and provides confirmation that invoices, POs or other documents have been received. This insight helps your company maintain a healthy cash flow, protect production schedules, and reduce the need for IT to hunt down failed deliveries. Sending with AventX gives you peace of mind that your documents were successfully delivered by allowing you to:

- ▶ **Confirm every delivery.** Get real-time confirmation of successful email or fax deliveries and receive notifications when a recipient opens your documents.
- ▶ **Proactively manage delivery issues.** Quickly identify delivery errors and troubleshoot failed invoices, POs or other documents without needing to involve IT resources.
- ▶ **Customize your messages.** Dynamically set subject lines, recipient/sender addresses, attachments, message bodies and fax cover pages to make your documents stand out and reduce the likelihood of miscommunication.

Key Product Features:

- ▶ Send BI Publisher- or UBE-generated reports
- ▶ Supports any document type: Invoices, Purchase Orders, RFQs and more
- ▶ Include any type of attachment files with any report (MS Office, PDF, HTML, JPEG and more)
- ▶ Deliver reports in batches, scheduled batches or individually
- ▶ Customize fax cover page templates to incorporate your company's brand
